

the  
tandem

The freedom to travel  
together, wherever.

# Two for one

When you need to take someone with you, a regular scooter just won't cut it. With our latest innovation, **The Tandem**, we had one very clear goal in mind:

**To give scooter users the freedom to travel in company easily, in the most practical & comfortable way possible.**

# Lots of fun

Take your better half with you and rekindle the romance, bring your friend on a nostalgic trip down memory lane or take your grandchild on an exciting adventure they'll never forget.

The choice is endless - the world is your oyster with **The Tandem**.

# features & benefits

The Tandem is supercharged with features to make getting around with company as fun, practical and comfortable as possible.

## **Super soft suspension**

Unrivalled comfort that makes for quieter driving

## **High performance lights**

Enjoy safer night driving

## **Pneumatic tyres**

Better performance means a better drive

## **Delta tiller handle**

Easier than ever before to control

# Practical & comfortable

The most practical and comfortable way to explore and travel on a scooter together. Whether its a trip to the shops or a journey more adventurous, **The Tandem** has your back.

## practical:

Easy-to-use delta handlebars, swivel seats, lights and all the other extras you would expect to find on a mobility scooter.

## comfortable:

Soft suspension ensures you, your partner and any passengers always travel in comfort and arrive fresh and relaxed.

## fun:

Two's company! Inject some fun into life as you visit the shops, doctors, friends, or simply travel for fun.
